TO WHOM IT MAY CONCERN

RE: INDUSTRY EXPOSURE/WORK-INTEGRATED-LEARNING

23 November 2023

Tshwane University of Technology is involved with the upliftment of students by means of Industry Exposure during the final academic year of their studies, an opportunity to be exposed to real work situation. During this period the student has to do a practical project that will add value to the organization. TUT staff together and the organization will evaluate the project during the period.

Students earnestly require at least 6 months training to enhance and sharpen their expertise and knowledge thus your Involvement with their training would **give** the chance to prove to you that they are able to be of benefit to you and your organization. The risks associated with hiring new staff are removed when employing a person who is not only known but also tried and proven. Personal development and motivation are enhanced, leading to improved academic performance.

Our coupled efforts will provide access to staff and facilities of a large education institution and enables employers to become actively involved in the education process. Remuneration arrangements are entirely between the student and the organization. References of organizations that are part of our Industry Exposure Program are available on request.

Student **Name:** KGOMO EN

Student Number: 219605579

ID Number: 9910185689081

National Diploma: IT: Software Development (Extended)
