

Elvis Noko Kgomo

PHP Developer

Elvisnoko18@gmail.com | (+27) 76 492 3096 | [Github](#) | [Linkedin](#) | [Personal Website](#) | Polokwane, Limpopo 0700

PROFILE SUMMARY

Junior Software Developer with hands-on experience in PHP, Laravel, MySQL, JavaScript, and full-stack development. Skilled in building and maintaining web applications, working with APIs, and collaborating within Scrum teams. Strong interest in AI-driven automation, intelligent systems, and scalable digital platforms. Quick learner, problem-solver, and eager to grow in modern PHP-based and AI-enhanced environments.

WORK EXPERIENCE

Full-Stack Developer — Moepi Publishing

Apr 2025 – Present | Remote, Pretoria

- Developing and maintaining PHP/Laravel applications for digital publishing platforms (Tekete).
- Working across front-end (HTML, CSS, JavaScript) and back-end logic to improve system performance.
- Improving deployments and collaborating with remote teams using Git, Linux, and Scrum workflows.
- Implementing secure features and refining platform functionality.

Software Developer — Cognifyz Technologies

Nov 2024 – Mar 2025 | Remote

- Built and enhanced backend modules for a task-tracking app using PHP principles and file I/O storage.
- Integrated data scraping features and automated content display.
- Delivered modular, reusable code and implemented data persistence logic.
- Worked with OOP concepts, debugging, and version control using Git.

End User Computing Technician

Pietersburg Hospital | Jan 2024 – Dec 2024 (12 months) | Polokwane, South Africa

- Assisted users by installing and configuring Health systems (eHIS, IBA and RX).
- Helped deploy and configure desktops, laptops and printers.
- Assisted with user account management tasks such as account creation, password resets, and access permissions.
- Troubleshooting and installing transversal systems (BlueZone, Baud, Bas and Logis).
- Provided first and second level LAN and desktop support.

EDUCATION

National Diploma in Information Technology (Software Development)

Tshwane University of Technology | 2019 – 2024

- Completed coursework in programming, database design, and software development, excelling in both theoretical and practical applications.
- Engaged in hands-on projects, including Health-Linker project which applied OOP principles in Java.
- Certifications: Red Hat Certified System Administrator (RHCSA), Cisco Networking Basic

PROJECTS

Tekete SafeSpace — Web Application | [Link](#)

- A secure web platform for reporting and managing sensitive abuse-related incidents.
- Includes confidential communication, role-based access, and incident management workflows.
- Built with PHP (Laravel), MySQL, Tailwind CSS, and secure backend architecture.

Homifi — Real Estate Mobile App | [Link](#)

- It is a modern real estate mobile app built with Expo, React Native, and PHP as the backend for API.
- The app allows users to browse, search, and book properties, view property details, and manage their profile.
- It features Google authentication, dynamic property filtering, and a clean, responsive UI using Tailwind CSS via NativeWind.

Movie Search App | [Link](#)

- A React application that allows users to search for movies using OMDB API.
- It features searching movies by titles, displaying search results in card format and show message when movies aren't found

SKILLS

Programming: PHP, JavaScript, TypeScript, MySQL, C++, Bash

Libraries & Frameworks: Laravel, Livewire, React, Node.js, Express.js, Vue.js, Next.js, Tailwind CSS

Tools & Technologies: Git, Linux (Ubuntu/KaliLinux), Docker, Firebase, MongoDB, CPanel, CI/CD, REST APIs

Methodologies: Scrum, SDLC, Documentation, Version Control

Additional Exposure: AI tools, automation workflows, virtual assistant integration, backend API design

EXTRACURRICULAR

Mobile Developer — Tshwane University of Technology

Jul 2023 – Dec 2023

- Collaborated with a team of five to implement SDLC methodologies and develop a functional Fitness mobile application.
- Gained experience in coding, UI/UX design, backend integration, and project management.
- Emphasized teamwork, problem-solving, and applying theoretical knowledge to real-world scenarios.
